STATUS REPORT - CASUSTAIN/15

1. SUMMARY: CASUSTAIN/15's current CKPOLAR target is PDFOG, a CKPOLAR businessman stationed with his wife in Hamburg. CASUSTAIN/15's other assignments are in reporting on local emigre and harbor community.

OPERATIONAL

2. Through two leftist acquaintances, CASUSTAIN/15 has obtained agreement to be introduced to Mrs. PDFOG for exchange of language lessons and conversation, however C/15's friends have not yet followed through. In April 1976, C/15 was told that arrangements were final, but shortly thereafter PDFOG went on vacation and C/15's friends have not arranged a new date in spite of her reminders. We believe this is due to personal problems in her friends' lives, including serious injuries in an auto accident.

3. After completion of her assessment of PDDITCH, a teacher in whom Headquarters expressed very limited interest, we decided that CASUSTAIN/15 should not join CAEVIL/Hamburg. This had been made a condition for continuance of her lessons with PDDITCH, so that she withdrew from the course. She has been able to stay in occasional touch with this circle of CKPOLAR sympathizers.

4. In Autumn 1975, C/15 was contacted by TPFEELING, who asked her to carry out another of her many campaigns of research among Bloc visitors to assess the impact of TPFEELING. This activity brings C/15 into contact with various shopowners and tavernkeepers in the harbor area, who may be of interest in MPMAR operations or in case of a revival of interest in PDGLOBE operations.

5. In addition to these harbor contacts, her long-time TPFEELING stringers keep her in touch with the various emigre communities. In the course of a given campaign, they may interview several hundred Bloc visitors, whose names and positions are made available to her Case Officer. Although these interviews occasionally turn up interesting items of background information, which she reports to TPFEELING, we have not identified any viable operational leads. Local checks were also run on her QTPPOST interviewers, who were mostly newly recruited for TPFEELING in this campaign, but none of them appear to have useful access. In sum, C/15's activity gives the Base a relatively inexpensive and timesaving means of monitoring the local emigre community and Bloc visitors.

RECORD COPY

6. Social. In the hope that some of her acquaintances at the social level might have access to economic information, we have instructed C/15 to report on them. She has identified a banker in East Asian trade and a family who took a tourist trip to the PRC in September 1975. Traces and further assessment are in progress to determine the worth of these contacts.

7. Political. A/15 continues her work as a translator of CKPOLAR newspapers on behalf of the CDU/CSU.

#### PLANS

8. a. Our first priority is establishment of the contact to the PDFOG family.

b. C/15 has been instructed to continue full reporting of her harbor and emigre contacts, for possible use in MPMAR or Bloc emigre operations.
